We could give that a try. We have the meeting with Florida this afternoon. Some thoughts may be informed by this discussion as well.

Subject: Aldicarb Follow-up?
Importance: High

There are so many remaining pieces to this aldicarb puzzle, so I thought I'd ask. Therefore, is there anything that we need to huddle on with regard to aldicarb, or would each of us, as much as possible, try to come up with language concerning the requirements for what the company needs to do to potentially move forward for the extension in two plus years? Let me know your thoughts on proceeding forward. Thanks much!
